### **ABOUT THE UNIVERSITY:**

Acharya Nagarjuna University has completed three decades of its existence. It was inaugurated on 11th September, 1976 by the former President of India, Sri Fakhruddin Ali Ahmed. The name, Nagarjuna University is quite significant in that the great Buddhist preceptor and Philosopher Acharya Nagarjuna founded a University on the banks of river Krishna some centuries ago and made it a great centre of learning, attracting a large number of teachers and students from distant parts of the world. The University was established by Act 43 of 1976 of A.P. State Legislature and Governed by Act 4 of 1991. The aspirations of the southern coastal districts of Andhra Pradesh to pursue Post-Graduate education nearer their homes resulted in the establishment of Acharya Nagarjuna University. Acharya Nagarjuna University started with only 10 post-graduate courses in the University College. Since then, it has achieved tremendous progress through quantitative expansion and qualitative improvements on various academic fronts. This has been possible by the efforts of its dedicated faculty, an efficient team of supporting staff and high quality student input. The Acharya Nagarjuna University at present offers post-graduate education in 47 courses besides Post-graduate courses in affiliated colleges. University has got over 450 affiliated colleges in Krishna, Guntur and Prakasam Districts. The policy of the University is to encourage the University College and the affiliated colleges to introduce job-oriented courses at the Degree and Post-Graduate levels. The University has been striving to maintain high academic standards in consonance with quantitative increase in the number of students being enrolled every year.

### **ABOUT YOUNG RESEARCHERS FORUM :**

Young Researchers Forum is an International Research Forum established in the year 2012 to bridge the gap between theory and practice. The forum connects all the researchers situated around the globe.

#### **Vision :**

Our vision is to contribute excellence in science and research which serve as a valuable resource for society, and promote Academic / Research integrity and accountability. Attention to scientific issues of national relevance as well as of global concern, Breadth of understanding, knowledge of the human sciences, appreciation of intellectual excellence and creativity, spirit of exploration, rationality and enterprise.

#### **Mission :**

Our mission is to generate new knowledge by engaging in cutting-edge research and to promote academic growth by offering good research orientation and attitude to all the students and Research Scholars. To undertake collaborative projects which offer opportunities for long-term interaction with academia and Research. To develop human potential to its fullest extent so that intellectually capable and imaginatively gifted leaders can emerge in a range of professions.

#### **Objectives of the YRF:**

- To inculcate scientific attitude among children, youngsters and adults.
- To bridge the gap between theoretical and practical scientific knowledge in the people.
- To instill research wakefulness among Teachers.
- To indoctrinate research consciousness among Teacher Educators.
- To implant scientific research in the students mind.
- To create research awareness in the society.
- To eradicate stigma in the society on innovation of new inventions and techniques.
- To balance the people of the country on par with contemporary International Research Inventions.
- To take-up National and International burning issues as research projects for the benefit of the society.
- To prepare the people for happy living and world peace.
