Message

I deem it a privilege to present the 43rd Annual Report of the Acharya Nagarjuna University on behalf the Executive Council. First and foremost, I want to thank all the members of the Executive Council & Academic Senate Members, Faculty, Staff, Students for their valuable contribution and effort for the publication of 43rd Annual Report. This Report provides a platform to bring together data of not only Academicians, Researchers, Engineers, Scientists from Research and Development (R & D) Organizations, Students & Scholars but also Industry people other stakeholders. Over the decades, the University has manifested much progress in pursuit of excellence in teaching, research, development and Innovation. The year in retrospect has been satisfying and eventful. I wish to bring to the notice of the stakeholders that the University continues to offer enhanced access to higher education in the era of globalization in local and global level. Many teachers were granted major research projects by prestigious funding agencies while Research Scholars have distinguished themselves by securing Post Doctoral Fellowships and Rajiv Gandhi National Fellowships. The students have successfully completed their courses as per the prescribed Academic calendar and, I am sure, are in pursuit of their chosen vocations and professions.

The contents of the Annual Report reveal the vision, mission Goals and objectives of the university. It also reflects the administrative and academic initiatives taken up by the university in the past years. I congratulate Dr. B. Karuna & her team involved in bringing out this comprehensive annual report. I am sure that the report will stand as a testimony to the contribution of Acharya Nagarjuna University to the cause of higher education.

(Prof. Raja Sekhar, P)

Vision, Mission and Objectives

Vision

- To generate sources of knowledge that dispel ignorance and establish truth in everything (“SATYE SARVAM PRATISHTITAM”).

Mission

- To promote a bank of human talent in diversified faculties like Arts, Commerce, Education, Engineering, Humanities, Law, Natural Sciences, Physical Sciences and Social Sciences that would become an investment for a prosperous society.

Objectives

- To inspire and encourage all who would seek knowledge through higher education and research.
- To provide quality instruction and research for the advancement of science and technology.
- To promote teaching and research studies in disciplines of societal relevance.
- To bridge the gap between theory and practice of the principles of higher education.
- To develop human talent necessary for the industry.
- To open up avenues of higher education and research through non-formal means.
- To invite and implement collaborations with other institutes of higher learning on a continuous basis for mutual academic progress.
- To motivate and orient each academic department/centre to strive for and to sustain advanced levels of teaching and research so that the university emerges as an ideal institute of higher learning.
- To focus specially on the studies involving rural economy, justifying its existence in the rural setting.

INTRODUCTION

INTRODUCTION

1. Genesis:

Acharya Nagarjuna University is named after Acharya Nagarjuna - one of the most brilliant preceptors and philosophers - whose depth of thought, clarity of perception and spiritual insight was such that even after centuries, he is a fount of inspiration to a vast number of people in many lands. The University is fortunate to be situated on the very soil where he was born and had lived, a soil made more sacred by the aspiration for light and a state of wholesomeness by generations of students. It is the profound wish of the people of the area that this University one day raises to the level of the yesteryear Nalanda and Taxashila.

Established in 1976, the University has completed 41 years under the stewardship of successive Vice-Chancellors. The University has been accredited with A grade (3.08 CGPA) by the National Assessment and Accreditation Council in December 2016. Situated between the cities of Vijayawada and Guntur in Andhra Pradesh on Calcutta and Chennai National Highway (N.H-5), its Campus is spread over an area of 270 acres. Quantitative expansion and qualitative improvements on various academic fronts have been made possible through the efforts of its dedicated faculty, an efficient team of supporting staff and high quality students input.

2. University Emblem – what it signifies:

The crest and the motto adopted by the Acharya Nagarjuna University represent the creative essence of Indian culture oriented to the contemporary aspirations. The symbolism is based on the concepts that all human excellence proceeds from truth and culminates in truth. The individual symbols in the crest are emblematically related to one another so as to suggest the upward evolution of the life force from material plenitude and manifest reality towards spiritual magnificence and universal consciousness.

The young initiated into knowledge at the University shall achieve identity, growth, self-differentiation and fulfillment in the various

ascensions of intellectual and spiritual states shown in the symbolic scheme of the crest.

The vase of plenty (PURNA-GHATA) is a prototype from the Amaravati sculpture of the early centuries of the Christian era. It stands for material prosperity on the one hand and objective knowledge on the other its traditional attributes are sasya (fertility), sanatana (increase), sampat (prosperity) and samriddhi (plenitude). The vase is also a paradigmatic representation of the Universe and the creative cycle according to ancient Indian scriptures. Its face is Vishnu, the sustainer, its neck Rudra, the apocalyptic transformer; its base is Brahma, the creator.

Arising out of the superabundant water of life sprouting from purna ghata and transcending the mundane level, illuminated by the resplendent halo of the Sun, is the freshly blossoming Lotus. The pool of waters (manasa sarovara) symbolizes the creative. On the apex are the dharma-chakra and the Lotus representing the creative evolution symbolized by the solar orb.

On the apex are the dharma-chakra (the wheel of eternal law) flanked by harinas (deer), overarched by the visva-padma (the cosmic Lotus) flanked by makaras (symbols of the cosmic consciousness). The dharma chakra is reminiscent not only of rita but also of the Buddha's promulgation of the law (dharma chakrapravartana). The deers, too, have a two-fold connotation. On the one hand, they represent beatitude, and on the other, the highest point of universal consciousness.

The motto, '*Satye Sarvam Pratishthitam*' is an epigrammatic representation of the entire symbolism of the crest. It is singularly appropriate to the ideals and functions of the University, which is dedicated to the pursuit which is the Ultimate abode of all.

3. About the University:

The University started as an affiliating University with only 10 Postgraduate courses in the University College, which have been in existence right from 1967, when it was a part of the Andhra University Post- Graduate Centre at Nallapadu, Guntur. The University at present offers Postgraduate education in 70 courses, besides Postgraduate courses in affiliated colleges. Administration of the existing courses of the campus college is redistributed into three constituent colleges: i) College of Arts, Commerce & Law, ii) College of Sciences, iii) College of physical education and sports sciences from the academic year 2010-11.

The University College of Engineering and Technology established in 2009-10 offers instruction for B.Tech. in CSE, ECE, EEE, Civil, Mechanical and M.Tech., in Computer Science, Electronics and Communication Engineering, Structural Engineering and Power Systems. The College of Pharmaceutical Sciences established in 2009-10 offers M.Pharmacy programme in five specializations, along with B.Pharmacy. The University College of Architecture and Planning with B.Arch. programme also started functioning from the academic year 2010-11. These initiatives reflect the importance attached by the University to offer technical and professional education.

The University has been constantly striving towards achieving progress and expansion during all these years, in terms of introducing new courses in the University College, the affiliated colleges and professional colleges. This University has also pioneered the introduction of self-financing courses

in conformity with the thinking of the national educational policy-making bodies such as the University Grants Commission. The resources mobilized through these courses have been utilized for strengthening the existing faculties and starting of new disciplines in the self-financing mode.

The University has encouraged several colleges within its jurisdiction to introduce job-oriented and add-on courses at the Undergraduate and Post-graduate levels. For this purpose, the University has organised a workshop on Restructuring of undergraduate courses and designed several new combinations which enjoyed popularity with the affiliated colleges. The University has always been proactive in implementing the Model curricula developed by UGC/NCTE/AICTE/PCI. Academic autonomy has so far been extended to eight of the affiliated colleges as per the direction of the University Grants Commission, New Delhi. Steps are continuously being taken to implement the reports of various Committees to evolve a pattern of restructured courses keeping in view the demands of depth and direction and the need for academic freedom and creativity in all the courses of study offered by the University. In the pursuit of Quality drive, the University has been encouraging every affiliated college to opt for Accreditation from NAAC. The University has organized several workshops for Principals, Secretaries and Correspondents to drive home the necessity. So far 30 colleges affiliated to the

University have been accredited (four of them at A Level) by the NAAC. Still there is a long way to go in this regard.

Teaching and Research are the two eyes and twin goals of the faculty in the University College. The academic Departments seek to find a reasonable and useful balance between the world of knowledge and its use and application in more concrete and realizable form. The research programmes and course content focus on these issues and attempt to find solutions, so that feedback obtained by such an interaction could be used to bridge the gap between learning and its utility value. The Humanities and Social Sciences Departments in the Campus have been engaged in the task of studying many a socio-economic problems, faced by the society. Besides general areas, the research projects also cover a study of the problems of women, the oppressed classes of the society (both social and economic) and the problems of governance. There are a significant number of scholars working under Rajiv Gandhi National Fellowship programme in various science and arts courses. The UGC has also sanctioned considerable number of Project Fellowships as part of Major Research Projects to the University Faculty. The interaction between the funding agencies and their beneficiaries and, the managerial problems in industries form other research pre-occupations of the University. The need for providing legal advice to the needy is winning the attention of the researchers.

The Academic Senate of the University has also resolved to integrate the University with the Society through its extension programmes by creating separate funding for taking up such activities.

The Science Departments are engaged in carrying out work related to the growing scientific knowledge in solving the problems of society, like the study of pollution hazards and their prevention during development by isolating and characterizing the active principles from both floral and microbial sources finding alternative energy sources, development of new varieties and hybrids in chilies, computer applications and software development, augmenting and preserving fuel supplies and other bio-mass sources, defence research, exploring non-conventional energy sources aquaculture development, liquid crystals preparation and study of their physical properties, microbiology and plant pathology, etc., all of which have a bearing on the day to day problems of society. Data mining and analysis have been the focus of several departments.

The University has exclusive centres of study such as Dr. B.R. Ambedkar Centre for Social

Policy and Social Action, Mahayana Buddhism, Scientific Socialism, Disaster Mitigation Studies, Prof. K.S. Murthy Centre for Studies in Afro-Asian Philosophies, and Women's Studies, centre for conducting studies on Mahatma Jyothirao Phule and his social philosophy, Centre for Entrepreneurship Development indicating the diversified activities of the University. The UGC has sanctioned the establishment of a Gandhian Studies Centre, which has been organising a series of lectures on Gandhian philosophy. The University Library has acquired a large collection of books for the ongoing teaching and research work in the university. The library has a micro filming unit and Documentation Cell. The Library has been subscribing to as many as 450 National and International Journals besides acquiring the back numbers of frequently used Journals and spends about Rs.60 lakhs for this purpose. A Primary Health centre is functioning on the Campus to provide medical aid to the Staff; the Instrumentation Centre and the Computer Centre which are equipped with the latest technology are functioning effectively. The Internet facilities in the campus have been modernised by introducing fibre optic connectivity. A drive is on to provide Wi-fi facility to all the Hostels in the campus.

The UGC NET Coaching Scheme, and Remedial Coaching Scheme for SC & ST Students have been yielding rich benefits. Several programmes and measures introduced by the University such as Centre for HRD, Citizens Charter, University

Newsletter are being strengthened to facilitate their functional efficacy. The Directorate of Admissions set up to conduct PG and research admissions, conducted the Admission Counseling Session for the year 2018-18 smoothly and the academic schedule was started as per the designated calendar. The University colleges conducted Induction Meeting for the newly admitted students. Emphasis is being laid on making the University acquire a true international character. There is the presence of a significant number of Foreign Students on the campus, joining various courses such as B.Tech, B.Pharmacy, M.A., M.Com., M.Sc. and in research leading to Ph.D. Another milestone in this direction has been the diversification of "On-line Education" covering many branches of education and using the advancements in ICT. Thus, ANU has been in the forefront in implementing the Mission of the Government of India, i.e., National Mission of Education through ICT (NME ICT).

NAAC Peer Team Visited ANU during 5-7 December 2016. It is a matter of pride that Acharya Nagarjuna University was accredited at 'A' Grade with CGPA of 3.08 on a seven point scale.

i. CHOICE BASED CREDIT SYSTEM (CBCS)

As a measure of ensuring quality, the National Knowledge Commission (NKC) has called for reforms in the Universities by way of frequent curricula revisions, introduction of choice based credit system, enhancing reliance on internal assessment, encouraging research, and reforming governance of institutions. Taking cue from these recommendations, Acharya Nagarjuna University has decided to implement the choice-based credit system (CBCS) from the academic year 2013-14 for all the post-graduate courses (As approved by the 68th Academic Senate at its meeting on 27-03-2013).

1. Why Choice Based Credit System?

- To provide academic mobility of students.
- To provide wider choice for the students in the current system.
- To make making the curriculum interdisciplinary.
- To enhance skills by including project work, entrepreneurship and vocational training.
- To improve the employability of students.
- To collaborate with the industry to foster innovations.

2. Components of CBC System

- Credit system
- Comprehensive continuous assessment
- Grading

3. What is a credit?

The term 'Credit' refers to the weightage given to a course, usually in relation to the instructional hours assigned to it. For instance, a five hour course per week is assigned five credits, four hour course per week is assigned four credits and two hour course per week is given two credits. However, in no instance the credits of a course can be greater than the hours allotted to it in the normal circumstances. It measures the volume of content to be delivered in the course being studied. A credit of a course also indicates the weightage of a course for calculating Grade Point Average. Thus, in each course credits will be assigned on the basis of the number of hours required per week for lectures/tutorials/lab work/field work to complete the course in a single semester. More specifically:

1 credit = 1 hour of direct teaching / week

1 credit = 2 hours of lab work /week

1 credit = 2 hours of field work /project /week

Thus, 1 credit course requires 1 hour per week during a 16 week semester and accordingly a 4 credit course requires 4 hours per week during a 16 week semester.

4. How is a Credit Measured?

Every one hour of lecture session/week amounts to 1 credit per semester. A minimum of two hour session of Tutorial or Practical/Practice session per week amounts to 1 credit per semester. A course of study may have only lecture component or tutorial or only practical/practice component or field work/project work/ tour; or combination of any of these components. The total credit earned by a student at the end of semester upon successful completion of the course is usually described as: L+T+P. The credit pattern of the course is indicated in L: T: P format. For a 4 credit course the format could be:

(a) 4:0:0 1:2:1 1:1:2 1:0:3 1:3:0 (b) 2:1:1 2:2:0 2:0:2 3:1:0 3:0:1 (c) 0:2:2 0:4:0 0:0:4 0:1:3 0:3:1

The concerned BOS will choose the convenient credit pattern for every course, based on the requirement. However, generally a course shall be for 4 or 5 credits.

5. Relationship between number of credits and marks per paper

Though credits are not directly related to marks, as a rule of thumb, we may consider 1 credit being equivalent to 25 marks. A theory paper with 4 credits may be assigned 100 marks. The concerned BOS will choose the convenient credit pattern and marks for every course, based on their requirement. Generally a course having 4 credits shall have 100 marks for theory paper and practical paper with 2 credits shall be assigned 50 marks. There may be some non-credit (NC) courses also, for which credits can be assigned, and they are to be completed satisfactorily; though not included in the grading.

6. CBCS Rules & Regulations as approved by the Academic Senate

(vide 68th Meeting of the AS held on 27-3-2013).

6.1 Evaluation

The performance of a student in each course is evaluated in terms of percentage of marks with a provision for conversion to grade points. Evaluation for each course shall be done by a continuous internal assessment by the concerned course teacher as well as by an end semester examination and will be consolidated at the end of the course. The components for continuous internal assessment are: Two tests (20 Marks); Seminar / Quiz (5 Marks); Attendance (5 Marks) Total = 30 Marks

In addition to continuous evaluation component, the end semester examination, which will be a written-type examination of at least 3 hours duration, would also form an integral component of the evaluation. The ratio of marks to be allotted to continuous internal assessment and to end semester examination is 30: 70. The evaluation of laboratory component, wherever applicable, will also be based on continuous internal assessment and on an end-semester practical examination.

6.2. Grading:

Once the marks of the continuous internal assessment and end-semester examinations for each of the courses are available, they will be added. The marks thus obtained will then be graded as per details provided in Table-1. From the first semester onwards the total performance within a semester is indicated respectively by Grade Point Average (GPA). After evaluation, assignment of Grade letter and Grade point (GP) to every paper is allotted as shown below (Table-1) at the end of each semester

Table-1

Sl.No.	Range of Marks	Grade letter	Grade Point
1.	≥ 90 and 100	O	10
2.	≥ 80 and < 90	A	9
3.	≥ 70 and < 80	B	8
4.	≥ 60 and < 70	C	7
5.	≥ 50 and < 60	D	6
6.	≥ 40 and < 50	E	5
7.	< 40	F	Zero
8.	ABSENT	-	-

6.3. Computation of SGPA

In each semester, Semester Grade Point Average (SGPA) shall be computed in all semesters as shown below (Table-2).

Table - 2

Paper No.	Credits (CR)	Semester – 1	Semester - 2	Semester - 3	Semester - 4
1	5	A	B	A	B
2	5	B	C	B	A
3	5	C	B	A	O
4	5	D	E	B	A
For subjects without Practical's there may be 5th paper	5	E	A	B	C

$$\text{SGPA (Sem -1)} = \frac{\sum \text{GP} \times \text{CR}}{\sum \text{CR}}$$

$$\frac{9 \times 5 + 8 \times 5 + 7 \times 5 + 6 \times 5 + 5 \times 5}{25} = 7$$

Similarly,

SGPA (Semester -2) = 7.4; SGPA (Semester -3) = 8.4; SGPA (Semester -4) = 8.6

SGPA Semester 2) = 7.4;

SGPA (Semester -3) = 8.4;

SGPA (Semester -4) = 8.6

6.4. Computation of CGPA

- (i) At the end of the course, Cumulative Grade Point Average (CGPA) shall be calculated as follows:
Conversion of CGPA to Percentage: Aggregate percentage (AP) = CGPA x 9.5

$$\text{CGPA} = \frac{\sum \text{GP} \times \text{CR}}{\sum \text{CR}}$$

$$= \frac{[(9 \times 5 + 8 \times 5 + 7 \times 5 + 6 \times 5 + 5 \times 5) + (8 \times 5 + 7 \times 5 + 8 \times 5 + 5 \times 5 + 9 \times 5) + (9 \times 5 + 8 \times 5 + 9 \times 5 + 8 \times 5 + 8 \times 5) + (8 \times 5 + 9 \times 5 + 10 \times 5 + 9 \times 5 + 7 \times 5)]}{100}$$

$$= 7.85$$

For example, if CGPA is 7.85, the Aggregate Percentage (AP) = 7.85 X 9.5 = 74.58

- (i) A science student has to secure a minimum of 'E' Grade in each paper and also a minimum SGPA of 6.0 points (D Grade) in any Semester to clear that Semester. Suppose any student gets 'E' Grade in two or more papers but fails to get an overall SGPA of 6.0 (D Grade), then he/she is free to reappear any of the paper(s) in which the student got E Grade of his/her choice in the subsequent examination(s).
- (ii) In case of Arts, Commerce, Law and other Social Sciences, a student has to secure a minimum of 'E' Grade in each paper and in Semester also.
- (iii) In order to fulfill "Choice Based" System, every student shall choose two Non- core papers one each in 2nd and 3rd semesters; in addition to the core papers prescribed for the course in which he/she was admitted and these two papers shall be chosen from other disciplines.

- (iv) The grades secured for the Non-Core papers will not be considered in the computation of CGPA, but student should get minimum of 'E' Grade to clear the Non-core papers and will be vividly displayed in the transcript and this will indicate his/her exposure to other disciplines, which will have added advantage in placements.
- (v) The departments shall have to design the time-table in such a way that the core papers are to be accommodated from Monday to Friday and Saturday is to be reserved for Non – Core papers in 2nd and 3rd semesters.

ii. Satellite Data Analysis and Application Centre (SDAAC)

Acharya Nagarjuna University opened a Satellite Data Analysis and Application Centre in collaboration with the Indian Space Research Organization (ISRO) on the premises of University Engineering College. The Vice-Chancellor inaugurated the Centre on 2nd June 2014, which is useful academically for B.Tech., M.Tech. projects and Ph.D. works. Satellite data is being received from ISRO and analysis is done here. This data will be forwarded to different Government Departments like Mineral Dept., Fisheries Dept., Urban and Rural Planning Depts. etc. for the development of our state as well as our country.

The following are the research activities in the SDAAC, ANU during 2018-19.

ANNAVARAM VILLAGE (NEAR PEDANANDIPADU)

(Cartosat-1 Image) Analysis Report on Water Bodies near Annavaram village

ORDERED IMAGE:

The ordered satellite image is shown below which is acquired by CARTOSAT-1, PAN sensor covering “ANNAVARAM Village” region.

DATE OF PASS:

The CARTOSAT-1satellite image is ordered and the date of pass of the satellite is 30th MAY 2014.

SOFTWARE USED:

The software used is ERDAS.

ANALYSIS:

A brief analysis has been performed on this image focussing water bodies nearby Annavaram Village.

LATITUDE and LONGITUDE of Kotappakonda temple:

Place	Latitude	Longitude
Annaram Village	16° 05' 12.6"N	80° 16' 01.4"N

PROCESS OF ANALYSIS:

The water bodies nearby Annaram Village are identified using ERDAS Software. In that software firstly the tiff image is has been loaded and supervised classification is done to mark different water bodies near annaram village. After mapping the water bodies the distances of those water bodies from annaram village are measured based on LATITUDE and LONGITUDE.

IDENTIFIED WATER BODIES:

Annaram village is 11 km from Pedanandipadu and 11 Km from CHILAKALURIPET. It is located 45 km from Guntur.

After initial analysis of satellite image first Annaram village is identified later Water bodies are identified in and around Annaram village. The water bodies are represented in RED Colour shown in the image below.

iv. DISTANCE EDUCATION PROGRAMMES IN ICT MODE

Acharya Nagarjuna University has launched its premium Online Programme for the benefit of the students. Both domestic Indian Students, Students of NRI status and students of other Nations can now, reap the benefits of higher education from Acharya Nagarjuna University through the "Online Programmes".

The University started Distance Mode of Education in the year 2003 and helped lakhs of students to enhance their respective academic qualifications. Now, this is a new initiative converging the latest technological advancements including cloud computing and that of Academic excellence to provide 'online Education'. The course material, replete with video lectures, audio books, textual study material and animated content, created by veteran professors and industry experts, provides the type of interactivity the students have been looking for. The students of these courses will be provided with their unique user ID and passwords, using which the students can access their personalised course pages on the University Learning Management System. The students shall be able to rewind and revise the lectures at their own will.

The University will also be launching its mobile interface which can be downloaded by the students on their smart phones, thereby making m-learning a reality. Students shall be able to access the full course content and also chat with the professors online on their smart phones. The university has also made the provision for the students to avail themselves of the off-line content for their mobile phones. The students shall be able to access the digital content without the need for any Internet connection. This feature of the online program shall be beneficial for the students of the state who hail from remote and far-flung areas with little or no Internet connection. Progress of the students is reviewed, monitored and guided online by way of SMS, e-Mail, IVRS and by a dedicated Call Centre. For the conduction of the programs and efficient student support, the University has partnered with Schoolguru Eduserve Pvt Ltd, a specialised Academic Support Services organisation with proven skillset to run and manage Online programs for Indian Universities. Schoolguru Eduserve Pvt. Ltd. is also supporting this venture by way of setting up of a Audio-Video recording studio in ANU campus to record video lectures by experts.

The entire process of admission, document verification, payment of fees, approvals and teaching shall be conducted online. Examinations, Assignments, Evaluation, Marks list generation and also the award of the degree is programmed to be online. ANU also is one of the first Indian Government Universities to launch the Online Examinations for all its students enrolling for the said courses. The students shall be able to take the tests on their laptops. The use of technology shall also help the University to assess the students efficiently and to provide prompt mark sheets.

Schoolguru has brought in the complete technology infrastructure at no Capital Expense to the University. The platform with its ERP, its integrated Learning Managed System and its Mobile Application is rugged, scalable and time tested. With the partnership of Schoolguru, the University has offered 18 Online courses with 32 programmes for the Academic Year 2014-15. 5 more courses are being offered from calendar batch 2015. For more information, please visit – www.anuonline.ac.in and www.schoolguru.in.

ACHARYA NAGARJUNA UNIVERSITY FREE ONLINE COURSES (ANU MOOCs)

Acharya Nagarjuna University has taken measures to design/develop MOOCs in ANU and has authorized the Director, ISC to work on the project and required facilities are provided to develop free online courses.

Salient features of ANU MOOCs:

1. **Title of the Project:** The initiative be called as “MOOCs”, to be developed on the lines of reputed world class universities like Harvard, MIT etc.
2. **Who will develop the courses:** The Faculty members from ANU and its affiliated colleges will be trained and motivated to develop ANU Online courses. Efforts of faculty members will be channeled through Nodal Office at ISC and interested faculty members will be asked to register their proposals, to avoid duplication of effort. The content given by the faculty members will be divided into number of small modules and presentation tools like PPTs, Audio/ video mixing will be provided by the facilities available in ISC online education and also in the Dept. of Journalism and Mass Communication. The final version of the content will be evaluated/ certified by subject experts and language editors and then only it will be placed in the University Website for free access to anyone, anytime, like any other MOOCs.

3. **For Whom:** The courses will cover all faculties and are offered free of cost to all to learn the subject. Those who want ANU certification will be required to pay Rs 500 for Indian students from within the country or US\$ 20 for all International Students.
4. **Procedure to be followed by Students:** Interested students are required to register online for the selected course(s) in the University Website/ ISC Website and after successful registration every user will be given a user name and password for accessing the courses.
5. **Assigning Credits to Online Courses:** At present all PG courses in ANU are offered through CBCS and in case of two year PG courses, every student has to select any course from the list of approved noncore papers during II and III semesters. Now the students may be asked to take MOOCs for Noncore papers in II and III semesters. The University will decide the number of credits to be allotted for that course depending on the coverage of syllabus.
6. **Evaluation and Certification:** The content developer must also develop question bank in the form of MCQs along with the course content for the purpose of evaluation. The built in mechanism in the software will enable the generation of question paper and system will itself evaluate the performance and result will be displayed instantaneously without human intervention. System generated certification or hard copy of certification may be issued by the university with the signature of authorized authority of the university.
7. **Time Line:** Some of the courses are offered w.e.f., 1st, September, 2015.
8. **Core Team:** Prof. A V Dattatreya Rao, Prof. V. Chandra Sekhara Rao, Prof. E. Srinivasa Reddy and Sri S.Koteswara Rao from M/s Schoolguru office in ANU. University has taken a decision to design and develop e- content by collaborating with a Technology partner for selected courses on trial basis during the academic year 2014-15. It started 34 programs, which includes UG and PG programs. ISC developed e-content for 229 theory papers, 19 lab papers and recorded 87 video lectures for various courses. 716 students have joined in these programs. University received Global HR Excellence Award and IMC IT award in 2015 for its contribution to ICT enabled education.

INTERNAL QUALITY ASSURANCE CELL

INTERNAL QUALITY ASSURANCE CELL (IQAC)

(A Post-Accreditation Quality Sustenance Activity)

Acharya Nagarjuna University was accredited by National Assessment and Accreditation Council (NAAC) in 2003 with B++ for the first time. As per the guidelines of the NAAC every accredited Higher Educational Institution has to establish an Internal Quality Assurance Cell (IQAC). Accordingly Acharya Nagarjuna University established IQAC soon after assessment by NAAC in 2003. It was inaugurated by Dr. V. S. Prasad, the then Director of NAAC. Acharya Nagarjuna University is one of the foremost accredited educational institutions to have established IQAC for a continuous monitoring of quality education. The University was accredited with “B” Grade in 2010 (2nd Cycle).

Apart from the basic objectives of IQAC, some of its functions are:

Recording and monitoring quality measures of the institution; acting as a nodal agency of the institution for quality related activities; Preparation of Annual Quality Assurance Report, Half-yearly Report and such other reports as may be decided from time to time. IQAC also shoulders the responsibility of other quality assurance activities of the Campus that include maintaining and processing the Career Advancement Schemes of Faculty on a continuous basis. It promotes the policy of imparting quality education in the institutions affiliated to Acharya Nagarjuna University. The necessary database useful for presentation at Governmental and other levels to assess the quality performance of the University is also being undertaken by IQAC. It is also involved in distributing Questionnaires to the students to get their evaluation of faculty and the courses. The results of the feedback analysis are then circulated to the faculty.

An associated advisory body called Quality Advisory Committee (QAC) was also constituted for guiding IQAC on the right path which was reconstituted in 2016. IQAC, along with a duly constituted steering committee, played an important role in the reaccreditation process of Acharya Nagarjuna University (3rd Cycle) in the year 2016. A committee comprising Deans of faculties and others had been constituted to take care of the seven criteria in the preparation of the Self-Study Report. The Advisory Board of the IQAC had several meetings with the Vice-Chancellor in chair to review the status of the criteria-wise preparation of Self Study Report and the Evaluative Reports of the Departments. Several workshops and awareness programmes have been organized by the IQAC in this connection.

The NAAC Peer Team visited ANU during 5 – December, 2016. Subsequently NAAC accredited ANU with CGPA of 3.08 on seven point scale at “A” Grade. This grade is valid for a period of 5 years upto 15th December, 2021, as per the certificate given on 16.12.2016.

PRISM CENTRE

PRISM CENTRE

DSIR – PRISM SCHEME

The DSIR (Department of Scientific & Industrial Research, Govt. of India), New Delhi, during XII five year plan initiated a scheme entitled, “PRISM (Promoting Innovations in Individuals, Start-ups and MSMEs)” with an aim to promote innovations by supporting financially the individual innovators. In order to implement the scheme, the DSIR has identified the centres called TOCICs (TePP Outreach cum Cluster Innovation Centres) in the country.

The Acharya Nagarjuna University has been allotted one such centre (ANU-TOCIC). The centre calls for fresh innovative proposals from innovators and arranges their processing for financial support by DSIR. It also provides counseling and mentoring facility to the innovators in addition to incubation facilities.

Who can apply for financial support?

- I. Any Indian citizen having innovative idea and wish to translate his / her idea into working prototype/model / process.
- II. Any public funded institution / organization / society registered under the societies Registration Act, 1860 or Indian Trusts Act, 1882 and engaged in promotion of innovation.

How to apply?

The prescribed application format and guidelines available in website: www.dsir.gov.in. can be downloaded and submit the application complete in all respects to the ANU-TOCIC, Nagarjuna Nagar-522 510, Andhra Pradesh

Thrust Areas: The proposals shall be preferably in the focus sectors namely, Green Technology, Clean Energy, Industrially used smart materials, Waste to Wealth, Affordable Health Care Water & sewage management and any other technology intensive area.

The innovative proposals are considered for financial support under the following four broad categories in PRISM Scheme

Program	Eligibility
PRISM Phase-I	
Category-I: Proof of Concept/ Prototypes/ Models Maximum support may be limited to 2.00 lakh or 90% of the total project cost whichever is lower.	Any Indian citizen including student innovator can avail support to develop their novel idea into demonstrable models/prototypes.
Category-II: Fabrication of working model/process know-how/ testing and trial/patenting/technology transfer etc. (Innovation Incubation) Maximum support may be limited to 20.00 lakh or 90% of the total project cost whichever is lower.	Any Indian citizen having innovative ideas.
PRISM- Phase-II (Enterprise Incubation)	
Maximum support may be up to 50.00 lakh limited to 50% of the total project cost. The support may be provided for scaling up technology based innovations, including patenting/design registration/ trademark registry/ technology transfer to develop a marketable product/process towards enterprise creation.	Successful PRISM innovators or innovators who have successfully demonstrated proof of concept with the support of other government institutions/agency.
PRISM-R&D Proposals	
Maximum support may be up to 50.00 lakh, limited to 50% of the total project cost for developing technology Solutions aimed at helping MSME clusters.	Any R&D institute/autonomous institutions/ public funded laboratories/ academic institutes and so on.

The following three innovative proposals processed by ANU-TOCIC have been approved for funding by DSIR - Advisory & Screening Committee

Sl. No.	Title of Project	Innovator	Sanctioned amount
1.	LED Lantern with Selectable Beam Pattern for PAYG	Sreedhar Ponugupati	15.00 Lakh
2.	Fully Automated Dry-Fruit Slicer	Sonal Jagdish Gupta	10.00 Lakh

The ANU-TOCIC will work on all working days. The innovators can approach the centre at ANU for any help in submitting proposal and for mentoring between 11 A.M. to 5 P.M

ANU – TePP Outreach-cum-Cluster Innovation Centre (TOCIC)

An interaction-cum-appraisal meeting with DSIR – Scientist Shri Pratap Singh was held on 26.8.2014 in the committee hall of ANU. The meeting was presided over by the Vice-Chancellor Prof. K.V. Rao and attended by the innovators who had been financed by DSIR for their innovative projects under Technopreneur Promotion Program (TePP) along with other budding innovators who wish to avail support for their novel projects. Shri Pratap Singh explained that the DSIR under PRISM Scheme wants to promote innovations from individuals in the areas of green technology, clean energy and waste to wealth, affordable health care and water & sewage management. The innovative proposals in the above areas would be financially supported in the PRISM scheme for providing proof of concept / fabrication of working model / testing & trial / patenting / technology transfer. He also traced various steps that help the domain experts to evaluate the proposals critically. He gave many suggestions to ANU-TOCIC staff on how to expedite the scouting of project proposals of innovators. The interaction proved very useful to the budding innovators, small scale entrepreneurs, domain experts and TOCIC personnel in the implementation of PRISM scheme and utilizing it for the betterment of society at large.

ANU-TOCIC invites innovative project proposals from individual innovators

The Department of Scientific and Industrial Research (DSIR), Government of India, has launched the scheme entitled, **Promoting Innovations in Individuals, Start-ups and MSMEs (PRISM)** for encouraging the innovators who can avail government financial support for developing their technological innovations into prototypes and for commercialization. The ANU – TePP Outreach-cum-Cluster Innovation Centre (TOCIC) of DSIR is established to implement the above PRISM scheme by receiving applications from innovators and their processing. The different categories of applications in the scheme are:

Prism Phase – I

Category- I: For Proof of concept / Prototypes / Models. Maximum funding upto Rs. 2 Lakh.

Category – II: Fabrication of working model / process know-how / testing and trial / patenting / Technology transfer etc. Maximum funding upto **Rs. 20 Lakh.**

Prism Phase - II

For Commercialization and R & D proposals for developing technology solutions aimed at helping MSME clusters: Maximum support upto **Rs. 50 Lakh.**

Prof. Z. Vishnuvardhan, TOCIC-Coordinator, ANU, said that any interested innovator can visit the website: www.dsir.gov.in and submit their application with innovative ideas. Your queries can be answered at TOCIC – ANU, Office Phone No: **0863 – 2346183 & 9866015487 & Email Id: anu.tocic@yahoo.com**
